1. Executive summary

The project aims to improve Cash Crusaders online system through several functions. Customers will be able to sell and buy products from cash crusaders. Cash Crusaders will also be able to buy from customer and sell back to them. Other functions include, customer request repairs of product bought at the store, loan application using collateral items, delivery, payment, and collection of items management. The system also aims for efficiency in order and returns management. Additionally, it will allow for posting and reviewing of job applications. Through digitalisation of these business processes, the system does not only improve operational efficiency but also customer convenience.

2. Business processes (List all Business processes for the project) (NO NUMBER 8?)

No	Business process	Sem / Inc	Brief description
1.	*Online Product Purchasing (REVIEW!!)*	*1/1*	*Customer and store places order for items required*

7.	*Manage repairs*	Submit repair request		*Customer request a sevice to repair*		
8.	*Process job applications*	Post job vacancies		*HR manages job vacancies*		

4. Use case description *(Only describe Semester 1 Increment 1 use cases)*

*Give a detailed description for each **business use case**. Do not include CRUD operations here.*

Owner: Mondli Mpurwana

Use case number	*01 REVIEW(NAME CHANGE)!!!!!!!!!!!!!!!*
Use case name	*Customer selling*
Brief description	*Customers sell items to the store*
Triggering event	*Customer requests to sell item.*
Actor(s)	*Customer, Staff members*
Preconditions	*Customer must have access to the system.*
Flow of activities	*1. Customer enters the item details* *2. Admin reviews the item* *3. Admin gives offer for the item* *4. Customer accepts the offer* *5. Admin prepares item collection*

Owner: Lonwabo Bhovula

Use case number	*02*
Use case name	*Online Product Purchasing for customers*
Brief description	*Customer places order for items required*
Triggering event	*Customer places an order*
Actor(s)	*Customer, Staff members*
Preconditions	*Customer must have access to the system, Item must be available*
Flow of activities	*6. System checks item availability* *7. Add item to cart* *8. Choose instore collection or delivery* *9. Checkout* *10. Choose payment method* *11. Confirm payment* *12. Send order confirmation and OTP* *13. Update system inventory*

Owner: Noluthando Mdletshe

Use case number	*03 REVIEW(Customer sells twice?)!!!!*
Use case name	*Sell items Online*
Brief description	*Customer sells items online*
Triggering event	*Desire to sell*
Actor(s)	*Customer, System, Staff member*
Preconditions	*Customer must have access to the system*
Flow of activities	*14. Advertise items* *15. Send offer to the customer.* *16. Customer accepts offer* *17. Sell item* *18. Update inventory*

Owner: Sisanda Duma

Use case number	*04*
Use case name	*Make online payment*
Brief description	*Customer or store makes a payment for an order*
Triggering event	*Online product purchasing*
Actor(s)	*Customer, Staff members, system*
Preconditions	*Item added to cart, ready to make payment, offer must be accepted by a customer*
Flow of activities	*19. Choose payment method* *20. Add payment details* *21. Confirm payment* *22. Processing of payment* *23. Get invoice* *24. Send notification*

Owner: Vuyani Mkhize

Use case number	*05 REVIEW!!!*
Use case name	*Delivery of items*
Brief description	*Store makes a delivery for customer orders*
Triggering event	*Customer makes a purchase, customer chooses delivery option*
Actor(s)	*Driver, Staff members, customer*
Preconditions	*Make a payment, send confirmation notification(REVIEW), Driver is available*
Flow of activities	*25. Customer chooses delivery option* *26. Assign driver to delivery(be specific who assigns driver?)* *27. Driver confirms pickup* *28. Driver goes to deliver customer order* *29. Customer confirms delivery with OTP*

Owner: Nzuzo Nhlanhla Kunene

Use case number	*06*
Use case name	*Collection of items*
Brief description	*Store collects item sold to them by a customer*
Triggering event	*Customer sold item to the store*
Actor(s)	*Driver, Customer*
Preconditions	*Send confirmation notification, offer must be accepted*
Flow of activities	*30. Customer sells item to the store* *31. Store gives customer offer* *32. Customer accepts offer* *33. Schedule item collection* *34. Notify customer for collection date/time* *35. Assign driver for collection* *36. Driver collects item from customer* *37. Driver delivers item to store*

Owner: Bontle Sihle Ndlovu

Use case number	*07 REVIEW!!1*
Use case name	*Return item*
Brief description	*Return item that was ordered*
Triggering event	*Customer return purchased item for exchange or refund*
Actor(s)	*Customer, staff member*
Preconditions	*Customer provides receipt and purchased item, item approved for return*
Flow of activities	*38. Customer request to make a return* *39. Customer provides reason for return* *40. Customer provides proof of purchase* *41. Staff approve return* *42. Customer gets a refund or exchange of item* *43. Update system record/inventory(shouldnt we remove this?)*

Owner: Andiswa Dhlamini

Use case number	*08*
Use case name	*Manage repairs*
Brief description	*Customer requests to repair an item*
Triggering event	*Customer submits repair request*
Actor(s)	*Customer, technician*
Preconditions	*Customer has a damaged item*
Flow of activities	*44. Customer requests to for a repair* *45. Customer submits the items details* *46. Technician inspects the item and provides repair estimation*

	47. Custom approves repair *48. Technician repairs item* *49. Customer collects their repaired item*

Owner: Aphiwe Sibanyoni

Use case number	*9 REVIEW!!+*
Use case name	*Process job applications*
Brief description	*HR posts job vacancies*
Triggering event	*There is an available position*
Actor(s)	*HR staff member*
Preconditions	*The store has an available position*
Flow of activities	*50. HR staff post available job vacancies* *51. HR Scrutinize submitted applications* *52. HR Conducts interviews* *53. System sends confirmation for successful/unsuccessful candidates*

Owner: Fanele Dhladhla

Use case number	*10*
Use case name	*Process loan application*
Brief description	*Customer applies for a loan, then admin reviews and approves the loan.*
Triggering event	*Customer requires a loan*
Actor(s)	*Customer, Admin*
Preconditions	*Have access to the system, provide collateral item*
Flow of activities	*54. Customer applies for a loan and propose collateral item* *55. Admin reviews loan application and collateral item* *56. Admin approves loan request* *57. Admin prepares collateral item collection or store drop off* *58. Customer signs loan agreement* *59. Admin disburses the loan amount*

*Draw the use case diagram for each **business use case**. Do not include CRUD operations here.*

5. User Manual

5.1 Access detail – you are required to setup the URL using the year and Group eg. https://2021GRP01.azurewebsites.net
5.2 Provide the URL and login details for each **role**
5.3 Usage of the **business use cases only**
NB. This section is only required in the final submission prior to the presentation.

6. Minutes of meeting

6.1 Date and time of meeting
6.2 Duration of meeting
6.3 Attendance – Present / Absent

6.4 Minutes
6.4.1 Decision taken, responsible person(s)
6.4.2 Allocation of tasks, responsible person(s)
6.4.3 Issues / challenges identified – how to be resolved.
6.5 Signatures
